

Thanks for purchasing the **Ultimate Mixing** pack. Below is all the information you need to install the chains in Logic Pro X.

This pack contains the following 50+ custom designed processing chains for Audio Tracks in Logic. This includes bespoke **EQ**, **compression**, **saturation**, **reverbs**, **delays** and more.

These chains contain presets, and like all presets, they should be treated as a starting point to help you build a great mix. I've built these chains based on scenarios that I've come across over years of mixing and I encourage you to tweak the presets to taste and make them work for you.

The chains were built using Logic Pro X 10.7.2 and I recommend you have updated to this version of Logic before installing.

If you have any questions or issues, feel free to email me at guy@guybritton.com

## **INSTALLATION INSTRUCTIONS**

## STEP 1 OF 3

Extract the ZIP file "Guy Britton - Ultimate Mixing" and press Copy on the folder containing the instrument sub-folders.

Name	
🗸 💼 Guy Britton - Ultimate Mixing	\$
> 📩 Bass	
> 💼 Drums	
> 💼 Guitars	
> 🚞 Keys & Synths	
> 🚞 Vocals	

## STEP 2 OF 3

Locate the **Audio Music Apps** folder for Logic's Patches and then select the 'Audio' folder. In most cases this is located under *Music* > *Audio Music Apps* > *Patches* > *Audio* 

	Name
>	Output
	Master
>	Instrument
	Input
>	Bus
>	Aux
~	Aud 🥱 Buy Britton_Vocal Chain - Stock Plugins.patch
	Guy Britton_Vocal Chain - Stock Plugins.patch
>	🛅 Guy Britton - Ultimate Pop Vocals
_	

Paste the copied folder into the 'Audio' folder here.

## STEP 3 OF 3

In Logic Pro X, create or select an **Audio Track**, open the Library (or press Y on the keyboard) and the chains should now appear in Logic under the 'User Presets'.
